# 3<sup>rd</sup> Gen New Optical Engine – the heart of what we do

MEDIT

## Precision is at the heart of what we do.

At the core of the i900 is a revolutionary optical engine empowered by 10-bit imaging technology. It delivers images of unparalleled clarity and true-to-life colors, alongside a deeper scanning depth that ensures every detail is captured with ease.

# 3<sup>rd</sup> Gen New Optical Engine – the heart of what we do

MEDIT

**Thanks to our innovative technology,**

challenging reflective metals and the various environments within the oral cavity are no longer obstacles.

With the capability to scan in tighter and deeper spaces with remarkable accuracy, our scanner provides unparalleled performance, ensuring that every detail is captured with the utmost clarity.

# Enhanced FOV, Effortless Scan

MEDIT

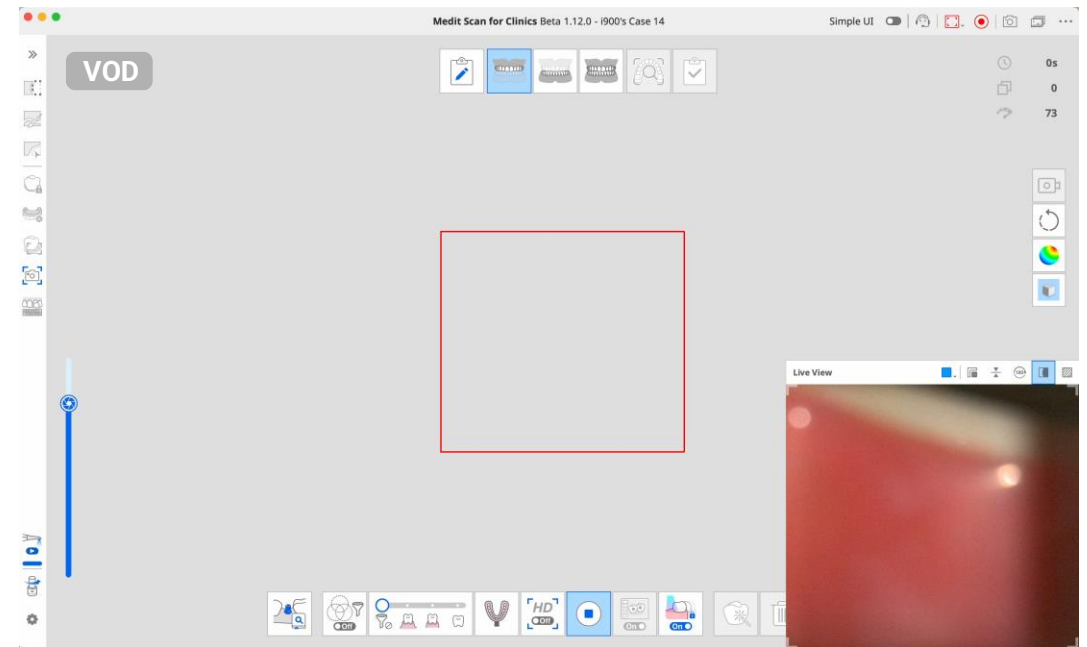

Welcome to a world where comprehensive scans are effortless.

With our enhanced field of view (FOV), you can capture a wider area with minimal effort, ensuring speed and accuracy in every session.

**MEDIT i900**

18 x 15 mm (552 x 460 px)

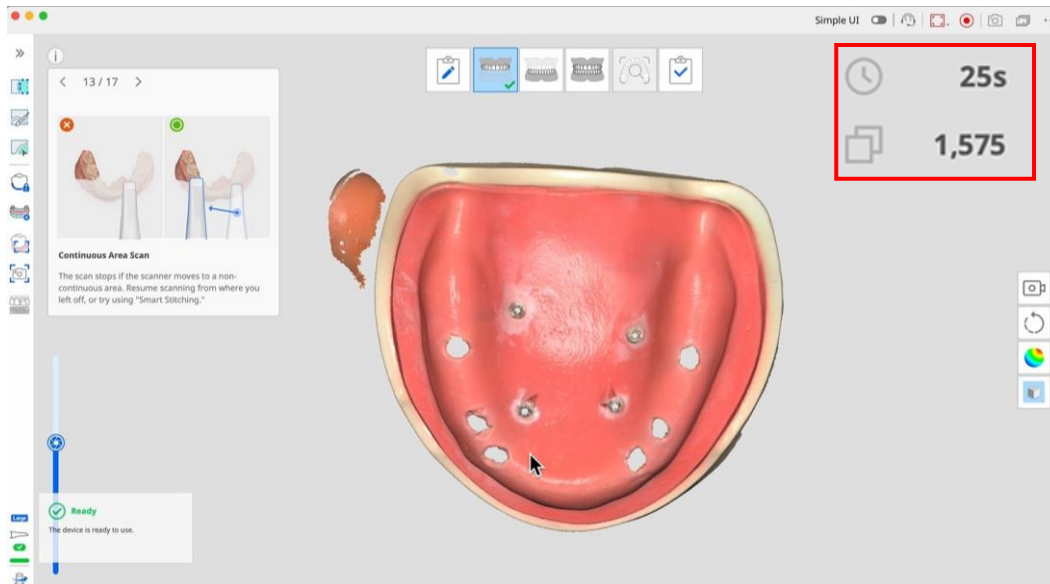

Comparative Product

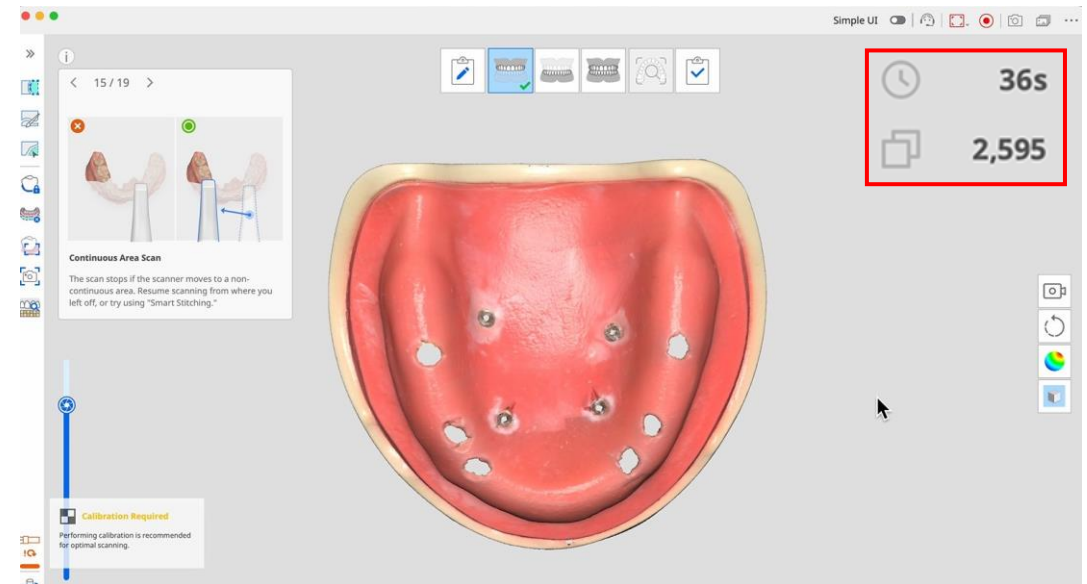

# Enhanced FOV, Effortless Scan

MEDIT

Embracing the larger scanning area, the i900 efficiently captures extensive data, reducing both scan time and data processing duration. Unlike other products that can experience data interruptions dependent on the scan path, the i900 operates smoothly and rapidly, even when scanning the most challenging edentulous models. It transcends conventional limitations, ensuring that every scan is a continuous, coherent process, and showcases the i900's exceptional performance.
